Statement of Delivery

Changes

Content Structure

The number of pages has been scaled back so that the user isn't overwhelmed by information. The new site map is shown in Figure 1 Sitemap. In this image the blue and Black pages indicate those which are accessible globally.

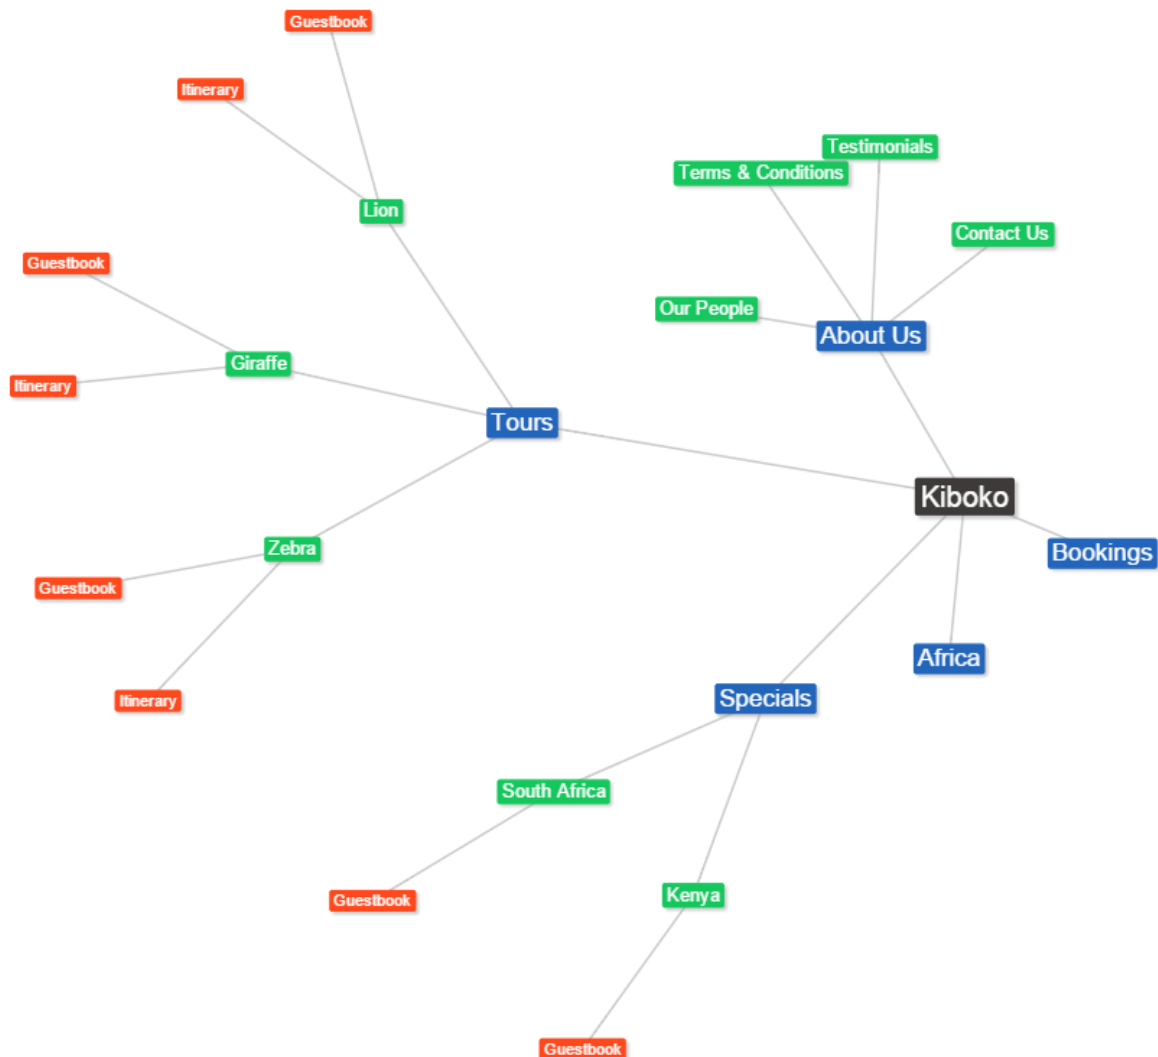

Figure 1 Sitemap

Visual Design
Colour Scheme

The colour scheme has been modified slightly in order to improve contrast. The brown is still used for background and has a hex code of 381f16, the green is used for headings and is 679a00, the grey is used for the background and has a value of e0e0e0 and the yellow and orange are used as accents and are valued at e8bc00 and ff9335. To assist in ensuring the text has enough contrast background corresponding to the colour scheme will sometimes be used.

Javascript
Slideshow

This is situated on the homepage and cycles through a variety of images showing users some of the experiences they can participate in through Kiboko.

Form Validation

This is used on the contact us page to ensure that the user has filled out the form correctly. This uses both jquery and the jquery validation plugin.
